

RAVEN ROI:

Success with DuraVent

DuraVent®

Duravent is a recognized technological leader in the venting industry, bringing new innovations in venting systems to market. With professional quality and safety top of mind, DuraVent was looking to increase output using their existing workforce and multi-layered operations.

THE CHALLENGE

Augment and enhance existing Lean architecture to improve production capacity, downtime efficiency and continuous improvement initiatives

THE SOLUTION

Cycle machines faster with real-time performance feedback

Provide real-time visibility into waiting time to drive faster and more consistent deliveries

Identify root causes for unplanned downtime

THE RESULTS

39%

Increase in operating efficiency

6%

Increase in OEE improvement per month since Raven was installed in plant

40%

Reduction in waiting downtime through rapid support and frontline response to machine issues
